BULK'S

NURSERIES

BABYLON, LONG ISLAND, N.Y.

An Invitation

TO YOU—TO VISIT OUR NURSERY

OFFICE BUILDING AND ENTRANCE TO NURSERY

You will find a visit to our Nursery very interesting and worth while. Many acres of highest-quality stock in a wide range of plant varieties are available for your inspection and selection.

A visit when the Ornamental Trees, Shrubs, or Rhododendrons are in bloom is especially interesting and is an excellent time for making selections. Information concerning the various plants and their proper use and care will be cheerfully given.

Landscape Service

Let us work with you and help you with your planting problems. Artistic and satisfactory landscape effects are the result of careful planning and the proper use of the right plant material. Our Landscape Department is maintained as part of our service to our customers, so that you may realize the utmost pleasure and satisfaction in the use of our materials.

The ability and experience of Bulk's Nurseries are reflected in the landscaping of many fine home-grounds, estates, and public plantings throughout Long Island and suburban New York. "PLANTED BY BULK'S NURSERIES" is synonymous with first-class workmanship, tasteful arrangement, and lasting satisfaction.

We will gladly draw sketches and plans to fit your particular needs, whether it be for a complete treatment of the entire grounds, a foundation planting, a special planting of any kind, or a revamping of an established planting. This service, in most cases, is rendered free of cost, except where elaborate plans, specifications, and special trips are necessary, in which case a small fee will be charged, which will be credited to our customer's account when order is placed.

Phone Babylon 444, or drop us a card and our representative will be glad to call on you to make suggestions and offer advice, without obligation to you. Our service extends throughout entire Long Island and the Metropolitan area.

Appointments at your home, any day including Sunday, will be gladly made and kept.

NURSERY SALES SERVICE

Prompt and efficient service is available for those who wish to call and select plants to take home with them. Our Nursery is open on Sundays during planting season, and experienced nurserymen will assist you in making selections, and show you around.

HONEST VALUE

For every dollar invested in our products is the policy of Bulk's Nurseries, and we are proud to live up to this reputation. Our prices are as reasonable as is consistent with the highest grade of materials, and we invite you to make comparisons with any stock of similar quality.

Our nursery stock is the finest that skill and good culture can produce, and our plants have an abundance of fine fibrous roots which are so essential for continued healthy growth.

A Drive in Our Exhibition Garden

MANY YEARS of patient, painstaking care and cultivation are necessary for the production of good nursery stock, and here at Bulk's Nurseries we take pride in the fine reputation our stock has earned. The quality of the product is no higher than the integrity of the producer, and we assure you there is a vast difference between the results obtained with well-grown, freshly dug plant material and the bargain-priced nursery stock sometimes offered.

When you purchase plants from Bulk's, you are assured of this inner value and may anticipate years of lasting satisfaction.

Below is shown a section of our Propagating Department. It is here that our plants originate and are nursed along from the tender stages until strong enough to plant in the field. Many years of care and culture are necessary in the field before the plants are ready for your needs, and it is here that our plants develop their hardiness and strength.

Visitors find this Department very interesting, and it helps them to appreciate the individual character and growth of the various varieties of plants.

Planting Seasons

Evergreens may be planted from the time the frost leaves the ground until the latter part of June, though early planting is much preferred. Some varieties can be moved satisfactorily during the summer months. August, September, and October are excellent months.

Plant shrubs, trees, and fruit trees from the latter part of March until June, and from the middle of October until the ground freezes. Pot-grown Roses can be moved the entire summer and continue to bloom.

GENERAL DIRECTIONS FOR ORDERING AND OUR TERMS

Always give address and desired time of delivery; otherwise we forward by the most economical route. Practically all our deliveries will be made by our trucks. Our free-delivery radius, on orders amounting to $10 or more, extends 30 miles from our Nursery. This enables distant customers to get the benefit of local prices. During planting season, loads are combined for each locality at least twice a week. Beyond this 30-mile limit, a small charge will be made for delivery to cover cost, unless otherwise arranged at time of sale.

The cost of planting, if we do it, is borne by the purchaser. Our charge merely covers the cost of labor, fertilizer, etc.

SPECIAL SERVICE

We are prepared to furnish competent gardeners at the proper seasons to do all kinds of garden work, such as general overhauling, summer and winter pruning, spraying, hedge-trimming, fertilizing, tree-repair work, etc. Such work is important and should be entrusted only to capable men.

GUARANTEE

Because all our stock is freshly dug and reaches the customer in fine, healthy condition, and because of the utmost care and skill used in growing our plants, we agree to replace any plants sold, at the prices published in this book, that may die within one year from date of delivery from other causes than abuse or neglect, but we make the following reservations:

The account must be paid within 30 days from date of invoice.

The customer pays the cost of delivery and planting of the replaced plants.

In the event we shall not have in stock, at the time for replacement, plants like those originally supplied, we are to apply the amount of credit representing the cost of the original plants toward the purchase of other plants that the customer may at the time select and which we can supply.

We guarantee our stock to be true to name and will replace any that proves otherwise, or refund purchase price.

ORNAMENTAL and SHADE TREES

IN ADDITION to the trees which are valued for their shade, there are flowering trees which, at different times during the spring and summer, shower the lawn with their bloom. Do not forget that while shade trees add materially to the property value and landscape charm of your home, the initial cost is very small as compared with the enjoyment that you receive. The average shade tree is a long investment and returns your money manifold throughout the years of its usefulness.

Plants for Every Purpose

There is a tree, an evergreen, a shrub, a perennial for every possible place or situation. The problem is to select the type of plant most suitable for each place. We shall be glad to offer suggestions at all times, and to help you in every way to secure the best possible results from planting material.

FLOWERING SHRUBS

Lilacs, Claude Bernard. See page 14

Hibiscus, Lucy. See page 11

WHETHER planted individually or collectively, shrubs are an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen the garage, the laundry-yard, or some unsightly view. Among borders of the lawn, along walks and drives and in corners, collections of shrubs may be gathered that will give a succession of bloom from early spring until fall. In the list that follows will be found shrubs for all such purposes.

AMELANCHIER

Amelanchier canadensis. *Downy Shadblow.* White flowers in early spring before the leaves, and in June sweet berries very much relished by birds.

	Each
3 to 4 ft.	$1 00
4 to 5 ft.	1 50

AMYGDALUS

Amygdalus communis. *Double Pink-flowering Almond.* Produces very double, pink flowers in great abundance in May. A most charming early-flowering shrub.

A. communis alba. *Double-flowering Almond.* Same as above, with white flowers.

BROAD-LEAF EVERGREENS

WITH few exceptions, no grounds, either small or extensive, should be without some representative of this rich and interesting group of plants. They endure shade, and their rich blossom and foliage effect makes them almost indispensable. Certain varieties of this class, such as Rhododendrons, Azaleas, and Laurel, ordinarily grow more satisfactorily and show to better advantage when planted in rather heavy masses. A deep, cool, moist subsoil, with proper drainage, is ideal. As a rule, they dislike lime, or limestone soil, and success will be more certain on such soils if they are planted in woods earth or mulched with peat moss. Oak leaves are ideal for covering the ground beneath them.

AZALEA

Azalea amœna. *Japanese Azalea.* Purple-red blooms produced in a solid mass during April and May. The lustrous leaves take on a rich bronze in the fall, making this a most attractive plant. It is a vigorous grower. Does well in shady locations.

EVERGREENS

IN this group are contained some of the most valued plants for landscape effects. The diversity of color and habit of growth in this class provide truly "a plant for every place and purpose," some for limited areas of foundation plantings or for bed and border uses, others for screens, hedges, windbreaks, and for group and specimen plantings. They are always desirable for any landscape plantings for both summer and winter effects.

ABIES · The Firs

Abies concolor. *White Fir.* Rapid-growing evergreen, with long, bluish green needles, and of symmetrical, upright habit. Splendid as a lawn specimen, as a contrast with the darker foliage of other trees, and is also useful in screen and border plantings. It is a tree of great dignity and stateliness and when given plenty of room to develop naturally, it keeps its magnificent lower branches until late in life.

	Each		Each
1½ to 2 ft.	$1 50	6 to 7 ft.	$12 00
2 to 3 ft.	2 50	7 to 8 ft.	18 00

Evergreen Hedges

From time immemorial people have used hedges and fences to protect their property from intrusion and to secure privacy. Until recently an evergreen hedge meant quite an expense, but they have now come down to a price-level within the reach of every home-owner. We invite you to compare the prices listed below with the cost of a fence.

ARBORVITÆ

American. Makes a very dense, fast-growing hedge that will reach considerable height if left to grow. Set plants 2 to 3 feet apart.

	10	100
2 to 3 ft.	$7 50	$65 00
3 to 4 ft.	12 50	100 00
4 to 5 ft.	19 00	165 00

Pyramidal. Because of its shapely habit of growth and deep green foliage, this makes a very fine hedge.

2½ to 3 ft.	$12 50	$100 00
3 to 4 ft.	18 50	160 00
4 to 5 ft.	25 00	200 00

HEMLOCK

The Hemlock hedge is ideal, and we recommend it as one of the most beautiful of evergreen hedges. Every year it grows increasingly beautiful. The Hemlock also grows well in shade, and lends itself nicely to shearing.

1½ to 2 ft.	$10 00	$90 00
2 to 2½ ft.	15 00	125 00
2½ to 3 ft.	20 00	175 00
3 to 4 ft.	27 00	250 00
4 to 5 ft.	40 00	350 00

JAPANESE YEW HEDGE

Without doubt, this is the grandest of all the evergreens for hedges. In England and on the Continent, Yew hedges make up a large part of the charm of the landscape. The deep, rich, dark green foliage makes them a beautiful thing to behold. Plant a Yew hedge now and enjoy it all the days of your life.

PINUS · The Pines

Pinus flexilis. *Limber Pine.* A hardy, upright-growing Pine with dark bluish green foliage.

	Each		Each		Each
2 to 3 ft.	$3 50	4 to 5 ft.	$6 00	6 to 8 ft.	$12 00
3 to 4 ft.	4 50	5 to 6 ft.	8 00	8 to 10 ft.	18 00

P. montana mughus. *Mugho Pine.* Dwarf evergreen. Slow growing, very hardy, compact and neat in habit. Most valuable where a low, dense evergreen growth is desired and excellent for rock-gardens and foundations.

	Each		Each		Each
12 to 15 in.	$1 50	2 to 2½ ft.	$3 50	4 to 5 ft.	$10 00
15 to 18 in.	2 00	2½ to 3 ft.	5 00	5 to 6 ft.	15 00
1½ to 2 ft.	2 75	3 to 4 ft.	7 50	6 to 7 ft.	20 00

P. nigra (austriaca). *Austrian Pine.* A stately Pine, vigorous and rapid grower; very hardy. Long, rich green needles. It thrives on any soil, inland or near the sea. One of the finest Pines for general planting, thriving in either the smoke- and gas-laden air of cities or the bracing salt air of the seashore. While it will stand trimming, it looks much better when allowed to grow naturally, when it will develop into a magnificent specimen.

	Each		Each		Each
2 to 3 ft.	$2 00	6 to 7 ft.	$10 00	10 to 12 ft.	$35 00
3 to 4 ft.	3 00	7 to 8 ft.	13 00	12 to 14 ft.	45 00

5 to 6 ft.	7 00	9 to 10 ft.	25 00		

Pinus resinosa. *Red Pine.* Resembles the Austrian Pine in habit, the needles, however, being longer and darker, though not so coarse or stiff. Quite as desirable as the Austrian Pine.

	Each		Each
3 to 4 ft.	$2 50	7 to 8 ft.	$10 00
4 to 5 ft.	3 50	8 to 9 ft.	13 00
5 to 6 ft.	5 50	9 to 10 ft.	20 00
6 to 7 ft.	7 50	10 to 12 ft.	30 00

P. strobus. *White Pine.* An extremely rapid-growing Pine, and forms very beautiful specimens if permitted to develop in the open. Useful as lawn specimens in the border, as a screen or windbreak, and is exceptionally fine for mass planting.

	Each		Each
3 to 4 ft.	$2 50	8 to 10 ft.	$15 00
4 to 5 ft.	3 50	10 to 12 ft.	20 00
5 to 6 ft.	5 00	12 to 14 ft.	30 00
6 to 7 ft.	7 00	14 to 16 ft.	45 00
7 to 8 ft.	10 00	16 to 18 ft.	70 00

P. sylvestris. *Scotch Pine.* Desirable for its very rapid growth and adaptability to most soils. Silvery foliage. Will thrive under the most adverse conditions, making very picturesque landscape effects as it matures.

	Each		Each
2 to 3 ft.	$1 50	4 to 5 ft.	$3 00
3 to 4 ft.	2 00	5 to 6 ft.	5 00

P. thunbergi. *Japanese Black Pine.* A beautiful Pine with rich dark green needles and interesting outline. Good for seashore planting.

	Each		Each
5 to 6 ft.	$7 00	7 to 8 ft.	$13 00
6 to 7 ft.	10 00	8 to 10 ft.	18 00

TAXUS • The Yew

Without question, the Yew (Taxus) in its various forms is the outstanding evergreen for use on the home-grounds and in general landscaping, for its dark green, rich-textured foliage is always fresh-looking and attractive. It is extremely hardy, not affected by cold or heat, and will grow in shade as well as sun. A slow grower and lends itself well to shearing. There are forms for various uses which are described below.

For years Bulk's Nurseries have specialized in the growing of Yews in many varieties, and the fine quality of our stock is widely known. We have a large and complete list and can supply your needs at prices that invite comparison.

Taxus cuspidata nana (Dwarf Japanese Yew)

Taxus baccata repandens. *Spreading English Yew.* Of graceful, spreading form. The most prostrate of all the Yews, and one of the finest low-growing evergreens because of its adaptability to shade or sunlight.

	Each		Each		Each
15 to 18 in.	$2 00	2 to 2½ ft.	$4 00	3 to 3½ ft.	$10 00
1½ to 2 ft.	3 00	2½ to 3 ft.	6 50	*3½ to 4 ft.	14 00

T. canadensis. *Canada Yew.* A variety with low, spreading habit. It is one of the American Yews and is popular for that reason. Known locally as Ground Hemlock, it is found on shady hillsides and this should be kept in mind when planting. It can be trimmed as desired.

	Each		Each
4 to 5 ft.	$7 00	5 to 6 ft.	$9 00

T. cuspidata. *Spreading Japanese Yew.* A compact, spreading variety with rich, dark green foliage and brilliant scarlet berries in the autumn. Perfectly hardy and valuable for many locations.

	Each		Each		Each
15 to 18 in.	$1 50	2½ to 3 ft.	$4 50	4 to 5 ft.	$12 00
1½ to 2 ft.	2 00	3 to 3½ ft.	6 00	5 to 6 ft.	18 00
2 to 2½ft.	3 00	3½ to 4 ft.	8 00	*6 to 7 ft.	26 00

For Hedges, see page 19.

T. cuspidata nana (brevifolia compacta). *Dwarf Japanese Yew.* An extremely hardy variety of irregular spreading habit. The branches are covered with black-green foliage. The choicest dwarf Yew.

	Each		Each		Each
12 to 15 in.	$1 75	2½ to 3 ft.	$8 50	4 to 4½ ft.	$22 00
15 to 18 in.	2 50	3 to 3½ ft.	12 00	4½ to 5 ft.	28 00
1½ to 2 ft.	3 25	3½ to 4 ft.	16 00	5 to 6 ft.	38 00
2 to 2½ ft.	5 50				

Taxus cuspidata capitata (Upright Japanese Yew)

T. cuspidata capitata. *Upright Japanese Yew.* This is the upright-growing or pyramidal form of the Japanese Yew, somewhat open in growth, with rich, dark green foliage. Particularly beautiful when covered with light green tip of new growth in the spring. A very choice evergreen.

Choice strain grown from selected cuttings, far superior to seedling plants

	Each		Each

There is always something of interest to be seen at Bulk's Nurseries, from the time the early Spring-Flowering Shrubs are a riot of color, through the blooming times of Azaleas, Rhododendrons, Dogwoods, Crabs, Japanese Cherries, Roses, Hardy Flowers and on through the rich foliage colors and berried effects of Autumn—always something of beauty and interest to be seen. We welcome visitors at all times and urge you to come and look around.

BULK'S
Hardy Roses

ROSES—the mere name is an inspiration to garden lovers. Nothing can take the place of the Rose. Almost every home has room for at least a few. Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal fertilizing, and good cultivation. Branches should be well cut back early each spring.

All Roses, except field-grown Hybrid Teas and Hybrid Perpetuals, carry our regular guarantee

HARDY PERENNIALS

IT IS no wonder that these old-fashioned hardy garden flowers continue to increase in popularity, for there is not a time during the whole flowering season when some hardy perennial is not in bloom, and when, during the late summer, few shrubs are in blossom, these little plants may be depended on for attractive display.

Plant perennials this year in the flower-bed where you have been using annuals. Every year you have to replace annuals, whereas the perennials come up each season with very little work or expense.

You do not need a large estate to have an old-fashioned garden or border from which you can pick flowers from early spring until late fall. Let us help plan your garden.

The size mentioned in the description indicates the height the plants may be expected to attain at maturity; the month represents the season of bloom.

There are no finer autumn flowers than the modern Chrysanthemums and you will like our new varieties.

Perennials marked (†) are suitable for rock-gardens

Chrysanthemum, Jean Treadway. See p. 26

Hardy Chrysanthemums

Hardy Chrysanthemums are constantly being improved and we are listing the best of the new varieties. They fill the garden with bright color in October and November and make invaluable cut-flowers. Brighten up your fall garden with these new, rich colors.

Korean Chrysanthemum, Romany. See p. 26

ROCK-GARDENS

We are prepared and equipped to undertake all kinds of rock-garden construction. In addition to natural field stone we can supply Tufa Rock, a beautiful and most interesting form of calcareous rock that is porous and ideally adapted to rock-garden conditions.

We can supply a good assortment of the best varieties of rock-plants. All forms of dwarf evergreens, shrubs, azaleas, rhododendrons, laurel, etc., suitable for the rockery, are carried in our regular stock.

If you are interested in this most fascinating and interesting form of gardening, please do not hesitate to call on us for advice.

Armeria. See p. 26

A Safe Investment

Planting is one of the few investments which do not depreciate. It always brings increased returns in actual value and satisfaction. Shade trees, ornamental trees, and flowering shrubs create value that increases the worth of a property at least 20 per cent. The return is immediate and it increases every year.

FRUIT AND NUT TREES

FRUITS

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield, which you will enjoy eating right from the trees or in winter as preserves and jam. The fruit-garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide blooms for cutting.

Spraying of Fruit Trees. For best results we recommend three sprayings: First, during the winter; second, after the blossoms fall; and, third, about two weeks later. This will control the most prevalent insects and fungous diseases attacking fruit trees on Long Island. We have men experienced in this kind of work who are available at a moderate cost.

NUTS

Set out a few Nut Trees. They make splendid ornamental trees and yield a bountiful harvest of nuts. We are offering only improved varieties, best suited to Long Island conditions. Grafted trees.
